**Pay Attention to Bank Messages and Beware of Suspicious Websites**

SUPER:           Keep your personal digital keys safe  
                      

SUPER:           Suspicious Websites

Sammy Leung:   When seeing advertisements of discounted air tickets  
                      don't buy in haste  
                      Make sure the website is reliable  
                      Otherwise  
                      it is easy to leak your digital keys  
                      like credit card numbers and  
                      other important personal information to fraudsters

SUPER:           Pay Attention to Messages

Do Do Cheng:    I shop online  
                      but I will definitely read the messages from my bank  
                      If you ignore them  
                      you may not be aware even when your digital key is stolen!  
                      Contact the bank for any suspicions!

Do Do Cheng and Sammy Leung:   Keep your personal digital keys safe
