

Hong Kong Monetary Authority
Online Drama “STEPS”

Episode 5

SUPER: STEPS Episode 5

Male Colleague: It's been quite a while, why isn't the car here yet?

Boss: Do you notice that you've indicated a wrong time when arranging transportation with the secretary?

Male Colleague: Oh, really?
It's okay
I have a car, I'll drive
Just wait for me here

Male Colleague: I've already reviewed the bank's financial reports and other relevant information before we leave office
Once we arrive, we'll first meet with the management to discuss the bank's operation
Today's thematic examination is to review whether the bank's operation complies with relevant regulations

Boss: Regulation and supervision of banks aims at ensuring the safety of citizens' deposits
So we must evaluate the safety and soundness of banks prudently their risk management systems and internal controls

Male Colleague: The engine is overheated because the radiator is out of water
That's impossible, I just checked a few days ago

Male Colleague: I'm sorry, boss

Boss: You don't need to explain
With such an attitude like yours even you have checked, it's still unreliable
Arranging transportation is such a simple task
You can still mess this up

Boss: Think about it
The entire banking system carries the life savings and assets of citizens
Different parts of a bank's operation are inter-connected
If any part malfunctions or if examinations are conducted so recklessly like you the whole system will be affected

Boss: Thankfully today
Only your car is out of order

Boss: You don't need to attend this meeting
Go back and reflect on yourself

SUPER: To be continued...
