

**Electronic Cheque (e-Cheque) service**  
**Video Demonstration (2):Deposit**

**e-Cheque service**

- Man: Let's go, I'm in a hurry!
- Driver: In a hurry? Where are you heading ?
- Man: The Economy Bank!
- Woman: The Commercial Bank!
- Man: Turn left ahead!
- Woman: Go straight and turn right!
- Driver: Where do you guys want to go?
- Man and Woman: We want to bank in the cheque!
- Driver: What kind of cheque?
- Man and Woman: The e-Cheque!
- VO: Depositing an e-Cheque is very simple  
You can do it online either through the Internet banking platform  
or e-Cheque Drop Box service provided by  
Hong Kong Interbank Clearing Limited!  
As long as the Internet banking platform  
provides e-Cheque deposit service  
the payee can simply log in to their Internet banking account  
upload the e-Cheque and choose the deposit account  
And it's done!  
Similar to the procedures for paper cheque deposit  
the settlement will be completed on the next business day!  
Due to system automation  
individual banks may extend the cut-off time

to give the payee more time to deposit the e-Cheque  
Alternatively, the payee can deposit an e-Cheque  
through the e-Cheque Drop Box service  
The payee can use the service readily after registering on the website  
or mobile application  
After signing in to the account  
the payee can upload the e-Cheque  
choose a bank and account number for cheque deposit  
and confirm the action after verifying all information  
How simple as that!  
You can even help others  
like a family member, to deposit their e-Cheques!  
However, please bear in mind not to print out the e-Cheques  
for depositing at banks  
No banks will accept a printed e-Cheque!

Man and woman: Done! It doesn't take long to deposit the e-Cheque!

Driver: Well, 30 dollars please!

Man and woman: Do you accept e-Cheques?
