

**DBS Bank (Hong Kong) Limited**

**Open a DBS Business Account Online**

DBS makes online account opening available to small and medium-sized enterprises (SMEs) and they can apply for business account opening through our bank's public website ([www.dbs.com.hk/sme](http://www.dbs.com.hk/sme)). Upon receiving the SME's online application, our bank's Relationship Manager will be in contact in 2 business days to set up an appointment to complete the account opening process. Prospective customers can also provide encrypted (e.g. password-protected) electronic copies of the supporting documents to the Relationship Manager via email for initial pre-assessment.

Eligible local SMEs can also opt for completing the account opening process via video conference ("Meet Online").

After the video conference, our bank will arrange designated courier services vendor to collect the certified copies of the supporting documents at customers' office, thus saving customers' time in commuting to our bank branches.
