SUPER:           Password Setting

AGA:             When composing songs and filming music videos  
I sometimes change my style  
Likewise passwords of e-banking accounts  
should be changed regularly

YanTing:         They are your digital keys  
and should be more sophisticated  
Don't use the same password for all accounts

SUPER:           Suspicious Links

Oscar:            Limited edition sneakers are open for sale now!  
Let me click the link first

Gin Lee:         Stop!  
If you click suspicious hyperlinks and attachments so recklessly  
your digital key would probably be stolen  
and you'll lose your personal information to fraudsters
