

**Electronic Cheque (e-Cheque) service**  
**TV Announcements in the Public Interests (API) - 2**

**e-Cheque service**

Manager: Hey! Remember to issue the e-Cheques as soon as possible!

Staff: Yes  
It's done!

Manager: That's not the right way to issue e-Cheques!

Moses Chan: You have to get the consent of the payees  
and confirm their email addresses before issuing e-Cheques  
When you receive an e-Cheque  
simply deposit it online  
A version that you've printed out won't be valid

The e-Cheque service has enhanced security measures  
It's secure and reliable!
