Intern's Job Description

Job Duties:

The Intern/Analyst will be exposed to the ins and outs of consulting. In most cases, you will have the opportunity to participate in some of our client engagements and be mentored by our senior staff. You will also have a chance to work on business development initiatives alongside Senior Consultants and Management to grow within the firm, develop proposals, and conduct industry research on emerging trends.

- Conduct basic research and analytics support to upper management
- Collaborate with teams on projects to share ideas and propose solutions
- Become familiar with consulting methodologies and approach
- Perform basic analysis and synthesize findings

Requirements:

(A) Education Background:

- Strong academic background, ideally from top-tier universities

(B) Discipline Preferred:

- Accountancy, Banking, Business Administration, Finance or relevant disciplines

(C) Technical Skills:

-

(D) Language Proficiency:

- Both written and spoken in English are a must. Knowledge in Chinese language (Mandarin or Cantonese) or French will be an advantage

(E) Others:

- Excellent interpersonal and communication skills
- High degree of motivation
- Able to work independently or in a small team environment
- Good analytical and conceptual skills
