

Citi Hong Kong - Placement Analyst (Data & Analytics)

About the company

Citi's Global Consumer Bank (GCB) serves more than 100 million clients across the world. Our elite teams work at the forefront of technology, providing best-in-class solutions to consumers and small business. Powered by innovative minds, we continually seek to go far beyond expectations, consistently enhancing lives and the way people bank, to shape the future of global banking.

You will find GCB strategically positioned in the world's top cities with the highest consumer banking growth potential, across all four of our global regions. We have five primary business lines: Branded and Retail Services, Retail Banking and Wealth Management, Mortgage, Credit Cards, and Commercial Banking. Together, they account for 4,000 branches, \$320 billion in deposits, \$285 billion in loans, and \$145 billion in assets under management. GCB is the leading credit card issuer in the world, with more than \$145 billion in receivables across branded and private label cards.

Internship Information

You can look forward to a 6 months or 12 months full time working opportunity which begins with firm-wide orientation together with other placement analysts and summer analysts. The placement opportunity will enable you to grow quickly into positions of responsibility, we expect our placement analysts to perform as our full time employees, involve in different data or machine learning projects implementation, and leverage the power of data to improve customer experience through analysis to ideation on implementation.
