Total value of SVF deposit & float (HK$ Mn)	**20,369**	**21,711**	**21,846**	0.6%	7.3%

Notes

1. Individual figures may not add up to the total due to rounding. Figures may be subject to subsequent adjustment.
2. "Withdrawal" includes ATM cash withdrawal, fund transfer to the accounts of other financial institutions, outward remittance, etc. Before Q1/2025, SVF transaction data comprise "point-of-sale spending payment", "online spending payment", "P2P fund transfer" and "adding value". Following the publication of "withdrawal" transactions, certain transactions that were previously classified as "point-of-sale spending payment", "online spending payment" or "P2P fund transfer" are now classified as "withdrawal" to reflect the relevant nature of such transactions.

3. Starting from the statistics for Q1/2022, the HKMA began to publish “adding value” transaction data to provide more information regarding SVF transactions. Following the publication of “adding value” transactions, transactions relating to certain receipts of online spending payment and P2P fund transfer that were previously counted under “online spending payment” or “P2P fund transfer” are now counted under “adding value” to reflect the relevant nature of such transactions.
