SUPER: STEPS Episode 2

Colleague: How are you doing? You look really tired

Male Colleague: Sigh, I had to come back for a tutorial over the weekend

Colleague: If only you weren't a smart Alec when talking to your boss!
He's known for his high standards

Colleague: Excuse me, that takeaway's ours!

Deliveryman: 96 dollars in total

Colleague: My supervisor is looking for me, I'm going up first
I'll pay you back later!

Male Colleague: But you haven't paid me back for the last meal

Colleague: I won't forget to pay you back!

Deliveryman: 96 dollars please

Male Colleague: Would you please wait for three minutes so I can go to get my wallet?

Deliveryman: Again?
You're the fifth person to say this to me today
You think you're superior for working in Central?

Male Colleague: I really don't have any cash!

Deliveryman: Even if you don't have cash, you can use Faster Payment System (FPS)

Male Colleague: FPS
Allows transfer of funds through mobile banking apps or e-wallet
But how does it actually work?

Deliveryman: Sir! FPS has been launched for over 2 years
Anytime, anywhere
Regardless of the weather, it operates 24 hours and 7 days
I know this, even as a delivery guy

Male Colleague: Okay, calm down first

Deliveryman: FPS was launched by the HKMA
You work here, but you said you've never used FPS?

Male Colleague: Let me help you with that!

Female Colleague: Let me transfer the funds to you via FPS

Deliveryman: 96 dollars to this number

Female Colleague: Alright, all done!

Deliveryman: Thank you very much

Female Colleague: Hey! It's done

Male Colleague: Really, thank you

Female Colleague: You're welcome, new colleague

Male Colleague: Which department do you work in?
Let me treat you to lunch

Female Colleague: Okay!

Female Colleague: Hello, boss
No problem
