Subordinate: English documents are ready  
Page one, page two

Driver: We've arrived, \$80 please

Subordinate: Okay  
I don't have any cash with me

Driver: Really? Are you kidding?  
I'll drive you to an ATM nearby to withdraw money

Male Colleague: Sir, have you registered for the Faster Payment System (FPS)  
for receiving money transfer?  
I'll transfer the money to you via FPS

Driver: Yes, I've registered

Male Colleague: It's done, thank you!

Male Colleague: So that's all for my presentation, thank you ladies and gentlemen

Boss: Good job!

Male Colleague: After taking steps by steps  
I've reached this point today in my career development  
I finally understand  
why my boss has been so stringent to me  
Just hoping that I can take my work more seriously  
so that I can serve Hong Kong's financial industry more professionally

Male Colleague: Every step is crucial  
No matter big decisions and small details I handle in my work  
They can affect the everyday lives of citizens  
and even inextricably link with the stability of Hong Kong's  
banking and financial system

Male Colleague: Today is your first day on board  
I've got a test for you  
Here are six \$1,000 banknotes  
one of them is a counterfeit note  
You now have three chances to identify it
