Event Introduction

The HKMA is proud to present to you our flagship event "**Unlocking the Power of Regtech**". Recognising the growing importance of Regtech, the HKMA has been engaging with the banking industry and technology community in Hong Kong to facilitate Regtech adoption since 2018. With a view to fostering a larger and more diverse Regtech ecosystem in Hong Kong, the HKMA developed a two-year roadmap to promote Regtech adoption. This flagship Regtech event is a key component of the roadmap. It brings together participants from the global Regtech community including financial institutions, Regtech providers, regulators and other industry experts to raise the awareness of Regtech and its associated benefits. The event comprises a series of panel discussions, experience sharing sessions, and demonstrations, designed to encourage discussion and networking.

Event Agenda

13:30 HKT
