

Guideline on the Green and Sustainable Finance Grant Scheme

Launched in May 2021, the Green and Sustainable Finance Grant Scheme (GSF Grant Scheme) provides subsidy for the costs of eligible green and sustainable bond and loan issuances in Hong Kong.

The Financial Secretary proposed in the 2024-25 Budget to extend the GSF Grant Scheme, which is due to expire in May 2024, by three years to 2027, and expand the scope of subsidies to cover transition bonds and loans, with a view to encouraging relevant industries in the region to make use of Hong Kong's transition financing platform as they move towards decarbonisation. The Hong Kong Monetary Authority (HKMA) will continue to administer the GSF Grant Scheme.

This updated Guideline on the GSF Grant Scheme will be effective from 10 May 2024.

The HKMA will keep in view market developments and industry feedback, and may adjust the design of the GSF Grant Scheme (including eligibility criteria, eligible expenses, grant amounts and application process) from time to time as needed.

Overview

The GSF Grant Scheme consists of two tracks, covering:

- I. General Bond Issuance Costs: covering bond issuance expenses (e.g. arrangement, legal, audit, listing fees, etc.) for eligible first-time green, social, sustainability, sustainability-linked and transition bond issuers; and
- II. External Review Costs: covering transaction-related external review fees (e.g. including pre-issuance and post-issuance external review) for eligible green, social, sustainability, sustainability-linked and transition bond issuers and loan borrowers, including first-time and repeated issuers and borrowers.

Grant applications for bonds or loans issued before 10 May 2024 will follow the [previous Guideline](#), and certain parts of this updated Guideline as stated below. Grant applications for bonds or loans issued on or after 10 May 2024 will follow this updated Guideline.

The granting of subsidy to a bond or loan under the GSF Grant Scheme does not in any way constitute an investment advice, nor does it constitute an endorsement of the bond or loan or the relevant taxonomies, principles, standards or guidance as referenced in connection with such subsidised debt instrument by the HKMA.

The HKMA will consider such confirmation and additional information on a case-by-case basis, taking into account factors such as (i) in the case of a transition bond, the extent to which it is an international issuance (i.e. issued in a market outside the issuer's home jurisdiction); (ii) in the case of a transition loan, the number and location(s) of the involved lender(s); (iii) the extent to which the taxonomy concerned is comparable to an internationally-recognised taxonomy in respect of, for example, the activities concerned; (iv) whether it would result in a substantially different alignment assessment had the external review been performed in reference to an internationally-recognised taxonomy.
